```
| Parcours BFS |
```

```
F = ]4]; M = \{4\}
Etape 1:
  - Les voisins de 4 :
    -> 2:
      => F = ]2]
      => M = \{ 42 \}
Etape 2:
  - Les voisins de 4 :
    -> 1:
      => F = ] 1 ]
      => M = \{ 421 \}
    -> 4:
      => F = ] 1 ]
      => M = \{ 421 \}
Etape 3:
  - Les voisins de 2 :
    -> 3 :
      => F = [3]
      => M = \{4213\}
    -> 2:
      => F = ]3]
      => M = \{4213\}
Etape 4:
  - Les voisins de 1 :
    -> 1:
      => F = ] ]
      => M = \{4213\}
        -----
        | Fin de l'algorithme |
        ----- Conclusion :
 M = \{4213\}
```
